

TIME TRAVELERS' DAY CAMP - 2023

2023 Theme: History of the Future - Energy Use Through the Lens of Time

A week-long day camp for 7 to 12 year olds set in the Historic Village where African American Alexander Twilight once taught.

Campers will take a look at how our forefathers expended and harnessed energy and how and why technologies changed during the time when the Industrial Revolution was beginning to take hold in northern Vermont, when Alexander Twilight resided in the Village (1829-1857).

Through hands-on exploration and historic theater related to renewable energy use through time and exploration of modern day alternatives necessary for a changing world, campers will gain an understanding of how integrated as opposed to separate we are from the natural world.

Activities: Camp favorites such as animal husbandry, outdoor cooking, theater, music, blacksmithing with theme explorations in solar cooking, wool as an insulator, water wheel experiments, hands-on lessons with the Vermont Energy Education Program and a Thursday field trip to Crystal Lake Falls Historic Association mill site - The Brick Kingdom

Session 1: July 17-21/ Session 2: July 25-29

Campers sign up for one or the other session, not both

See pg 2 for details. Register online at oldstonehousemuseum.org

TIME TRAVELERS' DAY CAMP 2023

COST:

\$300 for new families
