Okra 

Tomatoes (sold two, 4-6" plants to a pot)

Paste Tomato Mix: Romas, hogheart pastes, amish pastes, san marzano pastes and more all mixed up! You never know which you're going to get! Used both for canning and producing tomato paste because of their slender and meaty nature.

Moskovich: One of the most appealing extra-early tomatoes. Fruits are early, deep red, and cold tolerant. Rich flavor. Smooth and globe-shaped. 4-6 oz. with a small stem scar. Indeterminate.

Prudens Purple: 1 pound fruits with excellent sweet, balanced classic tomato flavor. A great choice for new gardeners looking for a dependable heirloom beefsteak tomato.

Rose de Berne: Beautiful rose-pink Swiss heirloom with big flavor and crack resistance. Medium sized fruits, with soft yet durable skin, have an even balance of acidity and sweetness that is perfect for a sandwich or in a quick tomato sauce. Earlier to ripen than other larger varieties and a consistent producer well into the season.

Principe Borghese: Italian heirloom bred for sun-drying, this low moisture variety maintains more flavor when dried than do other varieties. Slightly oval, 1 oz fruits. Prized in Italian cooking when reconstituted in olive oil, they can also be crushed into small flakes to quickly thicken a thin sauce while adding a rich tomato flavor.

Rutgers: Also known as the Jersey tomato, was the most popular tomato variety in the world before the era of mechanized farming began a change in breeding for durability over flavor. It is an open pollinated beefsteak.

Tang: Drought-tolerant, flavorful orange slicer packed with beta carotene for a nutritional boost.

Brandywine: Some of the most popular heirloom tomatoes grown in North America. They are known for their large fruits, great taste, and pumpkin-like ridges.

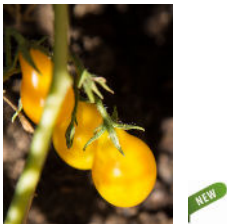

Pear: Pear tomato or teardrop tomato is an indeterminate heirloom tomato. There are yellow, orange, and red varieties of this tomato; the one being sold is red. They are mildly sweet, and are in the shape of a pear, but smaller.

Sweetie Cherry: Indeterminate cherry variety that produces heavy clusters of super sweet cherry tomatoes. Sweetie is known for its low acidity and high sugar content.

Golden Nugget Cherry: Their sunny yellow skin is thinner than most other cherry tomato varieties, giving them a tender texture. They are juicy with a mild, well-balanced sweet flavor and a low acid content.

Supernova Grape: Truly the standout in our star-studded grape tomato collection, Supernova impresses with both aesthetics and flavor. Red flesh with yellow marbling inside and out, and a unique mini-roma shape born on indeterminate plants.
